

EZI-CASE™

EZI CASE™ is a fast, efficient time management packaging and transport option for surgical instrument repair logistics.

Collaborating with **Jensen Instrument Technologies**, the **EZI CASE system** provides hospital staff with hassle free freight options for instrument repairs, pivotal in the in-house 24 hour turnaround guarantee. Made from impact resistant plastic, lined with foam interior, the EZI CASE is durable and can withstand any impact, protecting your delicate instrumentation.

EZI CASE™ - A system making it "EZI" for you.

STEP 1

Place all surgical instruments that are requiring service in your **EZI CASE™**.

STEP 2

Fasten latches and place supplied zip-tie around handle for ultimate security.

STEP 3

Contact **Jensen Instrument Technologies** for collection of your **EZI CASE™**.
